To whom it may concern:

I am requesting your assistance on our Tax Abatement.

We have seen a downturn in business, due to the increased competition in the market, as well as a substantial build out of a new Wastewater Treatment facility. These events have caused a financial strain, resulting in us needing to reduce expenses. The most obvious place to reduce is payroll, which I'd like to minimize.

We have been able to restructure our debt, which was necessary, and we have changed some of the ways we go to market. These moves have put us in a better situation, but we still need some additional help.

If you would consider putting a freeze on our Tax Abatement for the next five years, we will be able to stabilize our finances, and reduce some additional debt, allowing us to be on solid ground again.

Thank you for your consideration.

Dan Mitchell, President
